Dear SADA Member

In case you missed our initial email, or simply need a reminder...

DRI SA is a complete recycling/compliance solution company, which provides, upon signed service agreement, FREE technology/equipment to meet the upcoming regulatory changes mandated by the DFFE.

Don't Miss Out: Ensure Compliance Before April 2025 - Only 7 Months Away!

We hope this email finds you well. Reflecting on our incredible experience at the SADA Dental & Oral Health Congress, we want to thank those of you who attended and stopped by our booth to engage with us. It was inspiring to connect with so many dedicated dental professionals and discuss how we can support dentists in meeting the new regulatory requirements in South Africa.

Important Reminder: New Mercury Regulations

As you may be aware, the new National Environmental Management Act: Management of Mercury will come into full effect on April 1, 2025 - only 7 months away! To help you navigate these changes smoothly, DRI-SA, in partnership with SADA and Wright Millner's, has developed a tailored Compliance Program specifically for South African dentists.

Program Highlights:

- **FREE Amalgam Separator Unit & Chairside Amalgam Kit:** Valued at R25,000, provided with a signed annual recycling contract of 3 or 5 years.
- **Expert Guidance:** Comprehensive support on the new regulations and compliance procedures.
- **Seamless Installation:** Ensure your equipment is installed and operational before the regulations take full effect.
-

Act Now to Ensure Compliance

To guarantee that your practice is fully compliant by the enforcement date, we encourage you to sign up for the program as soon as possible. Register now at www.dri-sa.co.za/sada to secure your spot and start the process.

Our team is here to assist you every step of the way. If you have any questions or need further information, please don't hesitate to contact us at DRISA.
